

# EVENTS AT ISES2020

**i-HBM: International Human Biomonitoring Values Working Group**  
newly created under the  
**International Society of Exposure Science (ISES)**

Instructor: Sean Hays

## PRE-CONFERENCE COURSE

Saturday September 19, 2020  
8am - 2pm PST (Pacific Standard Time)

### Human Biomonitoring Guidance Values: Basis, Applications, and Harmonization

- Learn which agencies and groups are deriving biomonitoring guidance values (e.g., differences in the scientific basis for derivation)
- Understand the challenges and nuances associated with interpreting human biomonitoring data

## SYMPOSIUM

Monday, September 21, 2020  
6:00am - 8:00am PST (Pacific Standard Time)  
Virtual Room A

### Interpreting and communicating human biomonitoring data: per- and poly-fluoroalkyl substances as a case study

How various human biomonitoring programs interpret  
population-level biomonitoring data

#### PERSPECTIVES FROM...

#### North America

- Antonia Calafat - USA
- Kathleen Attfield - California
- Julianne Nassif - USA
- Annie St-Amand - Canada

#### Asia

- Jiyoung Yoo - South Korea
- Shoji Nakayama - Japan

#### Europe

- Maryam Zare Jeddi - OECD
- Marike Kolossa-Gehring - Germany
