The International Society of Exposure Science (ISES) Annual Meeting Technical Organizing Committee (TOC) is seeking proposals for Pre-Conference Workshops associated with our 2022 Meeting. To encourage engagement and to best accommodate presenters and participants from our global exposure science community, this year virtual and in-person workshops will be offered.

For 2022, we have adopted the theme “From Exposure to Human Health: New Developments and Challenges in a Changing Environment.” We would like to incorporate and identify relevant pre-conference workshops that would be beneficial for colleagues and trainees working in all aspects of exposure science (e.g., research, teaching, policy, communication, outreach). Here are some factors to consider for your proposal:

If you prefer a virtual workshop:

- The workshop should be no longer than 2 hours in length.
- Full logistical support will be provided with the virtual meeting platform and rehearsals.
- The workshop will be recorded and will be provided to you at the conclusion.

If you prefer an in-person workshop:

- The workshop should be approximately 3-4 hours in length. It will take place September 24 or 25 in Lisbon, Portugal.
- Full logistical support will be provided including classroom space, audio visual and WiFi.
- It’s possible the in-person workshops could be offered with a virtual meeting component.

• Engagement with the participants is highly encouraged (i.e., limited “lecture-only” content).
• In most cases, participants/attendees will be asked to pay a fee to attend/participate.
• Workshops will be marketed separately and in-conjunction with the annual meeting marketing. Annual meeting registration will not be a prerequisite for workshop registration but all attendees will be required to register ahead of time for all workshops.
• If you require or request attendee contact information ahead of time, this will need to be approved separately.
• Lead instructors will be provided a 20% discount to be applied to the annual meeting registration.

Please consider sharing your expertise and submit a proposal for a Pre-Conference Workshop. The deadline for consideration is Tuesday, February 15. To submit a Pre-Conference Workshop proposal, please submit online.

Other important information about the ISES 2022 Annual Meeting:
- Relevant deadlines for the event:
  - Tuesday, February 15, 2022: Pre-Conference Workshop proposals due.
  - Friday, February 18, 2022: Early bird deadline for symposium and abstract submissions.
  - Monday, April 18, 2022: Regular deadline for symposium and abstract submissions.

Conference Dates: September 25-29, 2022
Venue: Lisbon Congress Centre (all annual meeting activities)
Workshop Venue: University

Please submit Pre-Conference Workshop proposals by Tuesday, February 15. Submit online. Contact Sarah Dee (sdee@intlexposurescience.org) with questions.
